

# IWS: Luxury in Water Treatment

Since 2010, we have been transforming the ordinary into extraordinary through exclusive technology that goes beyond simple water treatment. IWS is neither a water softener nor an osmosis system: it is a unique vital experience that combines luxury, innovation, and well-being.

# Water as a Luxury Experience

## Exclusive Technology

Not a simple filtration system, but a proprietary platform that transforms and revitalizes everyday water into an unprecedented wellness experience.

## Excellent Craftsmanship

26 kg of selected components, hand-assembled with millimeter precision, guaranteed for life on the main unit.

## Vital Energy

A cutting-edge system that, based on the principles of quantum physics, infuses orgone energy throughout the entire water circuit. Water transforms into pure vital energy, providing deep regeneration for body and mind.

# The Secret Power of Living Water

Water in nature never flows in a straight line.

In rivers, streams, even in the sea, it moves following vortices, spirals, implosions.

This movement is what keeps it pure, vital, charged with energy.

The researcher Viktor Schauberger dedicated his life to studying this phenomenon, demonstrating that when water is guided through conduits that mimic spiral movements, its quality regenerates and its vital energy is amplified.

IWS integrates this principle: thanks to decades of design, in 2010 we created a controlled vortex guide that promotes water regeneration by creating orgone energy.

## Implosion: The Movement that Generates Life

According to Schuberger, implosion is the motion that goes from the outside inward, in a concentric spiral that builds energy, order, and life.

With IWS, you don't bring home a system, but a principle of nature, encapsulated in exclusive technology, not replicable elsewhere.

# Advanced Technology and Health Benefits

100%

## Total Coverage

Installed after the meter, it serves the entire water system: every faucet, shower, coffee machine, and professional kitchen receives uniform quality water.

∞

## Lifetime Warranty

Built with indestructible materials like copper, brass, and steel, designed to last over time without compromise.

26kg

## Artisanal Precision

Each system is a unique piece, hand-assembled and aligned to your space with precision tolerances to ensure excellent performance.

# Exclusive Benefits of IWS Water

## Carbonate Transformation

Conversion of calcium into aragonite, eliminating the risk of kidney stones and preventing incrustations in systems.

## Mineral Bioavailability

Increased bioavailability of minerals present in water, promoting optimal hydration and superior health.

## Natural Memory

Restoration of water's natural memory, supporting holistic well-being and enhancing the body's vital energy.

"Imploded" water appears lighter, more digestible, and more pleasant to the palate, with a silky touch on the skin during showering.

# The IWS Experience: Beyond Water Treatment

"IWS is not just a product, but a unique experience for those seeking an investment in their longevity and daily well-being."

IWS combines advanced science, quantum physics, and orgone energy for a result that goes beyond simple water treatment.

# How to purchase

## Purchase Request

IWS is available upon request: contact us to check current availability and delivery times.

## Compatibility Check

We provide a dedicated technical sheet to verify the hydraulic and structural compatibility of your residence or business.

## Custom Assembly

After approval and advance payment, the organic tuning and assembly of your unique personalized system begins.

## Delivery

Advance payment by Bank Transfer

Home delivery with all installation instructions, through your plumber.

# Water, Elevated to Energy

A harmonious system, a luxury you can feel, the pulsating heart of your home.

IWS: Since 2010, measurable luxury, perceptible energy.

The Most Exclusive Water in the World
