

# Innovative Water Treatment System

An opportunity for those who choose refinement

We present our revolutionary solution for domestic and commercial water treatment. A luxury Italian product that combines tradition, technological innovation, and environmental sustainability. Since 2010, we have represented excellence in the water treatment sector, offering health and well-being in every drop.

# Our Mission: Italian Excellence Worldwide

We are an Italian company specializing in the commercialization of innovative water treatment systems, representing the pinnacle of national craftsmanship. Our commitment is to reflect the essence of our work in the water appliance sector, bringing innovation and quality to every installation.

## Always, Excellence in Pure Essence

We have always demonstrated that IWS is not just a promise, but a reality: a specialized product, available on the market since 2010, which has already earned the trust of the most demanding professionals in **fine dining, luxury establishments, and the most exclusive private residences.**

Our strength comes from a simple belief: **the quality of water determines the quality of life.** For this reason, IWS is chosen by those who leave nothing to chance — by those who wish, every day, to drink **pure, vital, and uncontaminated water**, as a symbol of balance and authentic well-being.

**IWS is more than technology: it is a culture of purity.**

A distinguishing mark for those who understand the value of perfection in every detail, even in what flows invisibly but is essential.

The system operates entirely hydraulically, without the need for electricity or constant maintenance, representing an ecological and sustainable solution for water treatment.

# Distinctive Features of the System

## Strategic Installation

The system is positioned immediately after the water meter, to effectively serve all dispensing points in your home, office, or business, ensuring the availability of treated water wherever you need it.

## Zero Waste

A direct flow system that completely eliminates water waste, ensuring 100% operational efficiency. Every drop is valued without loss or discharge.

## Lifetime Warranty

We offer a lifetime warranty on our systems, a unique competitive advantage in the market that demonstrates our confidence in the quality and durability of the product.

## Hydraulic Operation

Completely hydraulic technology that requires no electricity or continuous maintenance. A sustainable, reliable, and economical long-term solution.

# High-Quality Craftsmanship for Discerning Individuals

## Italian Craftsmanship Excellence

Each system is entirely composed of precious, long-lasting metal alloys, resistant to corrosion, guaranteeing consistent performance for decades.

The quality of materials is the cornerstone of our manufacturing philosophy.

Hand-assembled piece by piece by the most skilled artisans, each construction is unique and not a mass-produced product.

This artisanal approach ensures attention to detail and superior quality control over every component.

### Component Selection

Every element is carefully chosen to offer the maximum of its beneficial properties, creating a perfect synergy between materials.

### Refined Design

A distinctive solution dedicated to those who accept no compromises and desire the best from their daily water.

### Guaranteed Uniqueness

No two systems are identical: Italian craftsmanship at the service of your health and well-being.
