

# Water Remembers, Man is Reborn

There is a moment, in the silence between one heartbeat and the next, when matter ceases to be solid and becomes consciousness.

There, water speaks. Not in words, but in frequencies.

# The Living Memory of Water

Every drop that flows within you is an archive of light, a breath of cosmic memory. Within this transparency live billions of molecular dances moving in perfect synchronicity, like an orchestra that has learned the language of the universe.

Water **remembers**. It remembers the vibration of your first breaths. It remembers fear, joy, the sound of your emotions. And every time you drink it, it rewrites your being.

You are not a body hosting water. You are water that has learned to think. And every thought you create vibrates in your internal fluids, like waves shaping your biology.

# The Quantum Language of Life

## Coherent Frequencies

Every water molecule is a coherent field, a small universe that responds to the vibration of the environment.

## Cosmic Memory

Water records and transmits information through its invisible crystalline structure.

## Bio-Resonance

Your energy changes when the water within you returns to harmonious balance.

Quantum physics today reveals its secret: every drop carries the potential for transformation.

# Orgone Production and Amplification

Water does not only absorb Orgone energy: under certain conditions, it is capable of amplifying and generating it, acting as a true vehicle of vitality. This property makes it a central element in studies dedicated to bio-energetic fields and the interaction between matter and subtle energy.

## Primary Absorption

Water captures ambient Orgone energy through its bipolar structure

## Molecular Reorganization

Water clusters reorganize themselves to optimize energy retention

## Dynamic Amplification

Through vortex movements, water intensifies the trapped energy

## Vital Transmission

The amplified energy becomes available for biological and environmental systems

# Living Water: A New Awareness

## Imagine...

Imagine being able to drink water that remembers light, not chaos. Water that carries the information of life, not the residue of fear.

Imagine being able to harmonize with it, until you feel your body cease to be a vessel, and become a **symphonic instrument**.

Your body is no longer separate from the universe that surrounds it. Every cell becomes a note in a cosmic melody, and every breath a dialogue with the infinite.

### Restore Coherence

When the water within you becomes coherent again,  
your vital energy naturally awakens

### Natural Balance

Health is no longer a distant goal, but a result of  
molecular harmony

# Remember Who You Are

## Healing is Remembering

It is not an external miracle. It is remembering who you truly are:  
made of the same matter that sings between the stars.

## Wellness is a Choice

It cannot be bought, nor can it be conquered. It is cultivated with  
awareness, and honored with intention.

## Water Speaks to You

When it is alive, it reminds you of your essential nature: you are  
water that knows how to dance with the stars.

You are made of the same matter that sings between the stars and  
flows through the roots of the earth. Water, when it is alive, speaks  
to you.

## Quantum Physics & Orgone Energy

- **Coherence Fields:** We rebalance energy through coherence fields that generate movement and life in water.
- **Indestructible Materials:** A structure of solid brass, copper, and steel coordinated to create an active orgone environment.
- **Natural Impulse:** An outside-to-inside movement in a concentric spiral that creates order and life.
- **50,000 - 80,000 BOVIS:** Generating measurable orgone energy through controlled vortices.

# Superior Craftsmanship and Biovital Vortices

26kg

Excellence

Selected components meticulously hand-assembled to millimeter precision

100%

Lifetime Warranty

A lifetime warranty on the device's structure affirms its unparalleled manufacturing quality

2010

Year of Foundation

Over a decade of luxurious excellence with entirely manual assembly

## Biovital Vortices: The Language of Nature

DNA Helix

The helix is at the core of life

Tree Growth

A natural movement found in all forms of life

Water Vortex

IWS mimics this primordial dynamic in its technology

Water that does not flow in vortices is dead water, forcibly dragged through linear pipes. Water that follows natural movements regains its primordial power: it becomes a vehicle for health, well-being, and vitality. "Exploded" water is lighter, easier to digest, and more pleasant to taste.

# Selective, Made-to-Order Access

IWS is not a water softener nor reverse osmosis: it is a device that transforms every dispenser into a home health point. Those who choose IWS demand an unstandardizable level of quality: craftsmanship, precision, and absolute uniqueness.
